

RIVER OF LIGHTS

Tonight, I am going to River of Lights at the ABQ BioPark Botanic Garden!

During River of Lights I will get to go through a 1.6-mile path of over 700 one-of-a-kind hand-welded light displays, animated and 3D sculptures, and millions of twinkling lights.

I can use a map to look at the garden and prepare for my visit.

I can see a full size map of the event and find more details about what to expect at [Riveroflights.org](https://riveroflights.org) to help me plan for my visit to the event.

Before I go to River of Lights I need to make sure I have my tickets purchased in advance and bring everything I need to stay safe and have a good time.

I should check the weather and make sure to dress warm.

I can park at the ABQ BioPark Botanic Garden for River of Lights. I may have to wait in line in order to park my car.

Instead of parking at the Botanic Garden lot, I can take the **Park and Ride** buses from the Zoo parking lot at 10th and Stover.

I may have to wait in line to board the bus.

The bus will drop me off at the River of Lights and pick me up when I am ready to go back to my car.

Park and Ride is not available on January 2, so please park at the ABQ BioPark Botanic Garden.

After I park the car or get off the bus, I go the front entrance. I may have to wait in line before I can go inside. There may be other people waiting in line too!

If I need to bring a service animal with me inside River of Lights, I will be asked what service it provides before I can bring it inside the ABQ BioPark Botanic Garden.

When I go through River of Lights there will be different pathways I can take. All of the paths will have lots of light displays to look at. Some are shaped like animals, others are shaped like plants.

As I explore River of Lights, I may
hear music playing!

If I get hungry during River of Lights I can have a snack that I brought from home or can purchase one from Mrs. Claus' Kitchen.

See you later

When it is time to go I can exit the gardens and return to my car or the Park and Ride bus.

We hope to see you again next year at River of Lights!
